

Dear friend,

“The Face of Lincoln” is an extraordinary sculpture of Abraham Lincoln. Unlike other renditions of President Lincoln, this is his actual face to scale based on the 1860 Leonard Volk life mask, and its intimate interpretation by the renowned American sculptor Robert Merrell Gage. But for a fortuitous set of events, this was almost a “lost” sculpture of Lincoln. Through the discovery and production of this first strike bronze by the North Carolina Gallery of Fine Art, you now can make this Limited Series American Masterpiece part of your collection.

When you live with this sculpture of Mr. Lincoln, you will likely come to feel you know him personally, and develop an intimate bond with this extraordinary American President. This is an inspiring and uplifting experience very few will ever know.

Each bronze is custom made, and it is our goal is to make this experience one our collectors will cherish for the rest of their lives, and one that will serve as a legacy for their offspring, charitable works, or foundations.

The museums and well-known Lincoln historians have in every case acquired it almost immediately after viewing the bronze. It has been affirmed and purchased by these experts. Join this exclusive group by ordering yours today.

To order this masterpiece for your collection; please call us at **910-800-0951** or email us at **info@ncgfa.com**. We intend to process each order as they occur and assign the corresponding bronze creation stamp number on a first come first serve basis. You will know within days of placing your order for your commissioned sculpture which number will be assigned to your bronze. We are committed to limiting this to a series of 1865. We look forward to meeting you and welcoming you into the 1865 Club of Lincoln Gage bronze owners while this opportunity remains.

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Clell Hamm', is written over the printed name and title.
